UNIVERSITY PROJECTS

MangaNest | Android Manga & Manhwa Reader

- Built an Android manga reader with **AniList GraphQL**, **OAuth 2.0**, **profiles**, and **reading sync**.
- Developed multi-source content extraction using **Jsoup** with fallback parsing.
- Built a **RecyclerView reader** with Glide caching, image preloading, and persistent progress.
- Implemented **search**, **trending discovery**, and **Material Design UI**.

Tech Stack: Java, Android SDK, XML, GraphQL, Volley, Jsoup, Material Components

GitHub: <https://github.com/a1pratham/MangaNest>

FeedBook | Full-Stack Review Platform

- Built a full-stack review platform with **fuzzy search**, **category navigation**, and **AI chatbot**.
- Designed **9-table PostgreSQL schema**, triggers, and threaded replies using self-referencing foreign keys.
- Implemented **JWT**, **OTP**, **BCrypt**, **token rotation**, and **Spring Security RBAC**.
- Developed layered **Spring Boot REST APIs** and role-gated **React** frontend.

Tech Stack: Java 21, Spring Boot 3.5, PostgreSQL, React 19, JWT, Vite

GitHub: <https://github.com/a1pratham/FeedBook>

CERTIFICATIONS

JAVA Programming Certification | NPTEL

2026

Introduction to SQL | Simplilearn

2026

Fundamental Python Programming | Infosys Springboard

2023

Generative AI Proficiency | FutureSkillsPrime

2026
